This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

PREFACE.

The Twenty-eighth volume of the Lineage Book comprises the National Numbers 27001 to 28000, of members entering the Society 1899 when it numbered 30,000.

What mighty strides this army of patriotic women has made in a decade, not only numerically but in deeds of patriotism, fostering love of country, devotion to the flag, instructing the foreigner in the ways of law and liberty, maintaining the Constitution, and preserving for all generations the deeds of the men who formed, and those who upheld that Constitution.

The publication of this book records the deeds of many thousand more of ancesters than of the actual members of the Society.

Libraries throughout the country regard them as the nearly perfected work of genealogy. Our later volumes will give more thorough records, as the facilities for research increase, and the painstaking National Officer demands more thorough research by the applicant for complete papers.

May the future reader pardon a personal tribute in this volume to one who has been our able, untiring, intelligent compiler since the first volume of 1896. To her the Society may ever be grateful for this historical genealogy which is being made more perfect each year by her intelligent comprehension and devotion to the Society.

Gr.-granddaughter of Thomas Taylor and Frances Barlow, his wife; Maj. John Crawford (b. 1764) and Rebecca Allen, his wife.

Gr.-gr.-granddaughter of Charles Taylor and Elizabeth Pannell, his wife; James Allen and Margaret Anderson, his wife.

James Allen, (1716-1810), was at the battle of Point Pleasant, where his brother, Hugh, was killed. He signed the petition, 1776, urging religious liberty, which was sent to the Assembly by the Freeholders of Augusta county. He was born in Ireland; died in Augusta Co., Va.

Also Nos. 5880, 9434, 10270, 12201, 13332, 16129, 23137.

MRS. AUGUSTA McBLAIR. 28000

Born in Baltimore, Maryland.

Wife of John Hollins McBlair.

Descendant of Capt. Benjamin Bradford Norris, of Maryland.

Daughter of John Gadsby and Provey Norris, his wife.

Granddaughter of Benjamin Bradford Norris and Elizabeth Richardson, his wife.

Benjamin Bradford Norris, (1748-93), was a signer of the Declaration of Harford, 1775. He was captain of militia, 1776; served in the Legislature ten years, and, 1780, contributed for the relief of the army. He was born in Harford Co., Md., where he died.

Also Nos. 21440, 24555, 26382.

"See No."—indicates a reference to that number in the same volume.

"Also No." indicates the National number of a "Daughter" who has entered the Society on the same ancestor and whose lineage has been published in a former volume. This is done to link together widely scattered families. If the number should be 4006, it will be in the fifth volume; if 5005, in the sixth volume, etc.

"Real Daughters" are those whose fathers rendered service in the cause of Independence, and their names are printed in italics in the text and index. There are thirteen "Real Daughters" in this volume.
